MIRIZE

SMOOTH VEIL OIL

A frizz-fixing fragrance hair oil colors you with aroma

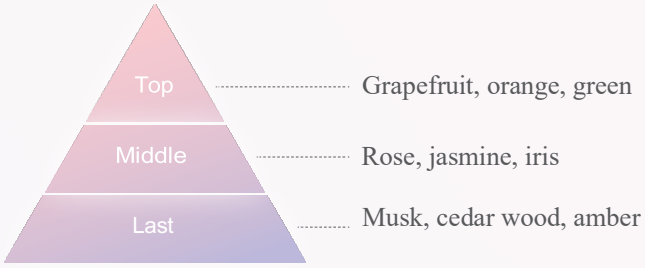

This moisturizing hair oil is ideal for hair that is prone to frizz, uneven texture, and difficult manageability.
Repairing ingredients help control frizz, while nourishing oils smooth the hair's surface and impart shine.
MIRIZE Smooth Veil Oil protects your hair from heat damage caused by dryers and styling irons and, with continued use, helps improve its beauty.

MIRIZE Smooth Veil Oil
(Hair treatment)
80mL ¥4,180 (tax included) / 20mL ¥1,320 (tax included)

FRAGRANCE

The sweet, vibrant, fruity floral fragrance helps boost your self-confidence.

For obedient and easy-to-manage hair through a comprehensive approach

Three components work together to repair and moisturize hair from the inside, the surface, and the tips, taming damaged frizzy hair from root to tip for manageable results.

Oil-Soluble Keratin (Isostearoyl Hydrolyzed Keratin (Sheep Wool))

This ingredient moisturizes the hair from within while helping restore resilience. Because the keratin is composed of both "proteins (keratin peptides)" and "lipids", mirroring the structure of the hair surface, it has a high affinity for hair, allowing it to repair damage efficiently.

Gamma-Docosalactone

Activated by heat from hair dryers and styling irons, gamma-docosalactone bonds to the hair to repair damage and control frizz, knotting, and flyaways. It smooths the hair surface and helps maintain a polished finish, proving effective even on rainy or highly humid days.

Inca Omega Oil (*Plukenetia volubilis* Seed Oil)

This non-greasy oil contains a significantly higher amount of polyunsaturated fatty acids than other vegetable oils, which helps to balance moisture and oil content and strengthen the hair's barrier function. It also works on damaged hair ends, reducing breakage and split ends.
